# Island Walk Spotlight

## IN THE SPOTLIGHT

This month we “spotlight” another one of our amazing Castle team members... Billie Jo Parker, General Manager. “Billie”, as she is known within the community, came to Castle in August 2023 with a great deal of experience in both property management and customer service. In fact, her entire adult career has always been centered around providing excellent customer service whether it was in a retail setting, hotel operations and management or HOA property management.

Prior to coming to Island Walk last August, Billie worked as an Assistant Community Association Manager (CAM) for the Quarry community in Naples. After 7 years, Billie decided it was time for a change and knew that coming to a larger community like Island Walk would provide her with new experiences, yet still allow her to contribute to the community using the knowledge she gained while working at the Quarry.

When asked what she enjoys most about being a CAM, she quickly responded, “working with and getting to know all the owners”. She loves the fact that every day is different and she never knows what challenges she will face - whether it’s a burst ceiling pipe, a last minute scheduled meeting, talking with contractors or dealing with a car running into a bush. She is one of those people who truly enjoys the “unexpected”.

Billie's typical week starts off with meeting with her department heads to get an update on their current projects. She attends all board meetings and sits in on many of the monthly committee meetings as well as with Juniper landscapers on a weekly basis. She ensures meeting agendas are prepared properly and posted and sent out, completes numerous financial and informational reports for the Board of Directors, assists with budget planning, staffing decisions and training. It is the General Manager who has the huge responsibility of overseeing the daily operation of the entire community, with all its moving parts.

Before beginning her career in property management, Billie owned and operated a retail clothing business for 11 years, then worked for the Edgewater Beach hotel. After leaving the hotel industry, she began working at the Quarry and quickly moved up the career ladder from Administrative Assistant to Assistant Operations Coordinator and eventually getting her license as an Assistant Community Association Manager. She attributes her success in all of her positions to her love of working with and helping people.

On a more personal note, Billie moved to southwest Florida in 1984, specifically Ft Myers, to be closer to her mom and the rest of her family. She has 2 sisters and 2 brothers all who now reside outside of Florida. Her mom, whom she enjoys spending time with every week, now lives in Estero. When not working, Billie loves to cook, bake, go to the movies and decorate for the holidays. She also enjoys gardening and planting flowers which makes perfect sense as her maiden name was "Gardner"! But probably the most unusual thing she shared was that she "loves to clean and iron". In fact, not being allowed to clean was her mom's form of punishment when she was a child. I told her anytime she feels the urge to clean or iron she should just come to my house! LOL

It was a true pleasure getting to interview and learn more about our General Manager, Billie Jo Parker. From our conversation, it was clear she cares deeply about this community and the people who live here and will continue to strive to make it better than it already is.

## Tai Chi Simple: A Revitalizing and Empowering Practice

**Classes begin Oct 7th**

Instructor: Susan Gold Falkenstein

Experience: 14 years of practice and teaching in Tai Chi and Qigong, focusing on health and longevity.

Tai Chi Simple is rooted in the ancient Chinese practices of Tai Chi and Qigong, designed to enhance health and well-being. This class will help you develop flexibility and suppleness, allowing you to bend, twist, and stretch without pain. You'll learn ShiBashi, a traditional practice from China consisting of 18 movements that cultivate mindfulness and awareness in your movements.

The Tai Chi movements taught in this class will improve your balance and range of motion, particularly in areas like the hips and lower back. Gentle breathing exercises, stretching, and tapping techniques will also boost your immune system. The movements are easy to follow and can be performed seated if necessary. The goal is to equip you with a "mind-body toolbox" that you can incorporate into your daily routine to support all your other activities.

By the end of the class, you'll feel refreshed, calm, ready to tackle the rest of your day.
